

Preparation Phase

Setting Up Application Environment

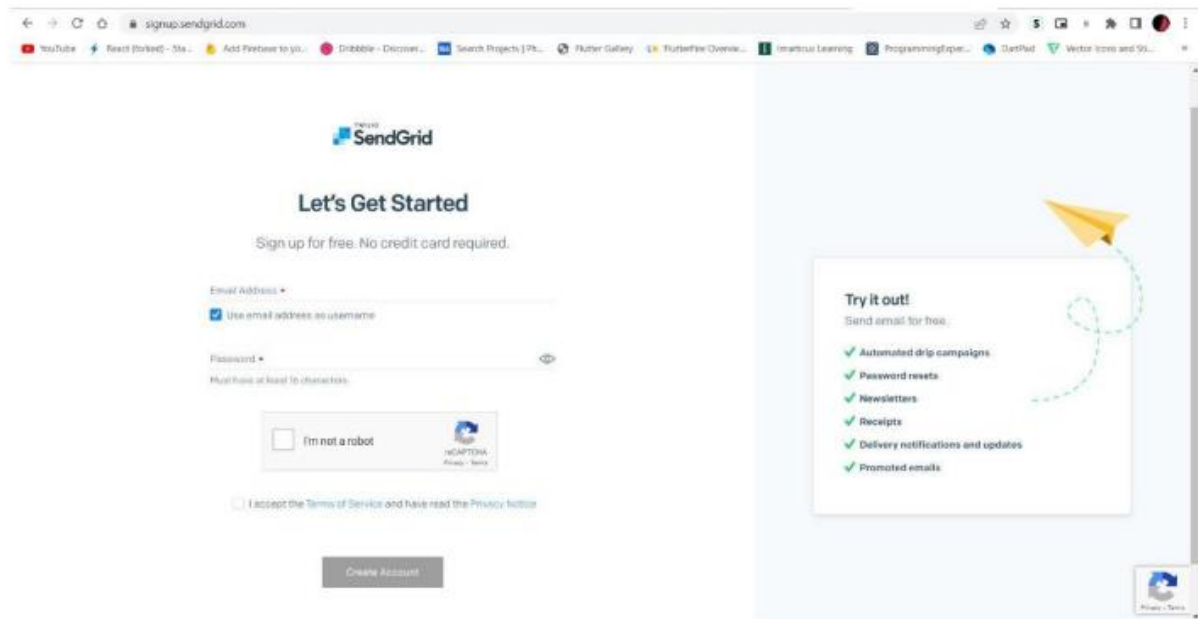

Create An Account In Sendgrid

Date	27 August 2022
Team ID	PNT2022TMID26477
Project Name	Personal Expense Tracker Application

Step1: Search for the sendgrid <https://sendgrid.com/>

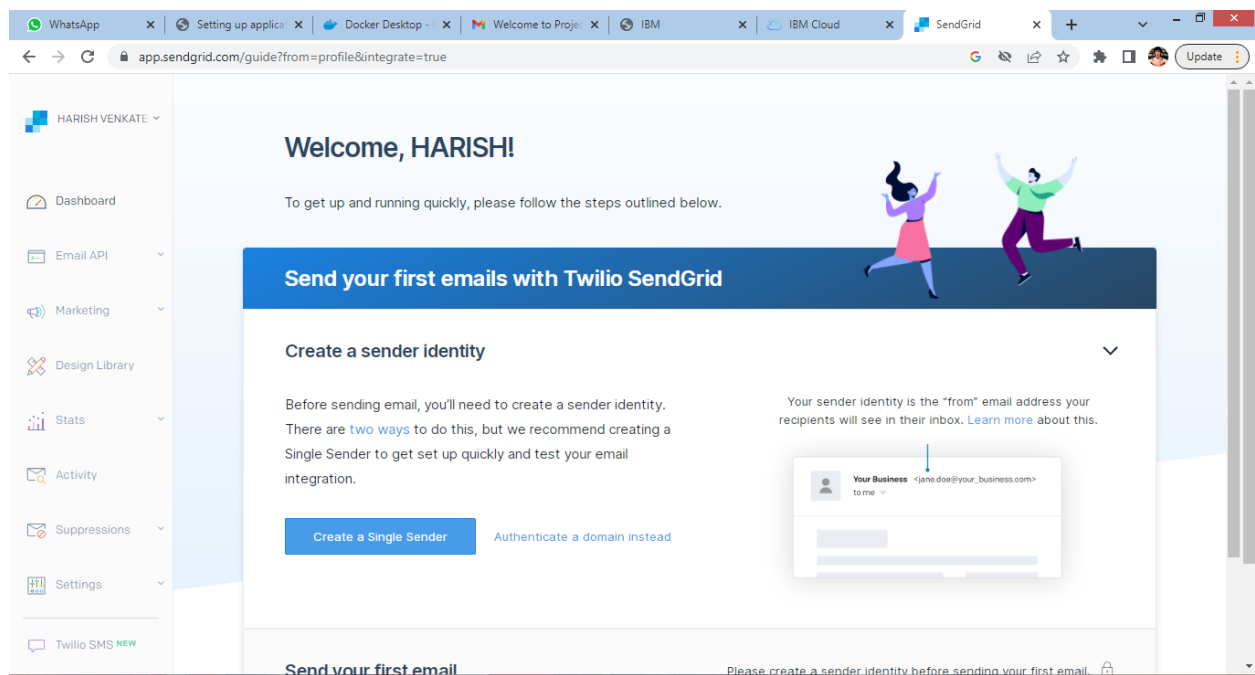

Step 2: Registering new account.

The screenshot shows the SendGrid sign-up page. At the top, the SendGrid logo is followed by the heading "Let's Get Started" and the text "Sign up for free. No credit card required." Below this is a form with an "Email Address" field, a checkbox for "Use email address as username", a "Password" field with a strength indicator, a reCAPTCHA "I'm not a robot" widget, and a checkbox for "I accept the Terms of Service and have read the Privacy Notice". A "Create Account" button is at the bottom. On the right, a "Try it out!" box lists features: Automated drip campaigns, Password resets, Newsletters, Receipts, Delivery notifications and updates, and Promoted emails.

Step 3: Sendgrid account created.

The screenshot shows the SendGrid dashboard for user HARISH VENKATE. The left sidebar contains navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area has a "Welcome, HARISH!" message and instructions to follow steps to get up and running. A prominent blue banner reads "Send your first emails with Twilio SendGrid". Below this, a section titled "Create a sender identity" explains that a sender identity is needed before sending emails and offers two ways to create one: "Create a Single Sender" (highlighted in a blue button) or "Authenticate a domain instead". An example email header is shown: "Your Business <jane.doe@your_business.com> to me". At the bottom, a message says "Send your first email" and "Please create a sender identity before sending your first email."
